Ref.	Raised	Description	Status

Documentation Updates

Enhancements

Ref.	Raised	Description	Status
CR-1208	21/07/2023	The following items related to EIEP5A are included in this release: • ER-1238 – updates to outages were not cross checking the submitting distributor was responsible for the ICP • ER-1296 – split web service ICP inquiry (by ICP identifier) into a separate call and return information for the ICP only instead of information related to all ICPs on the outage • ER-1295 – distributions were occasionally returning ack files more than once due to a timing hole • ER-1294 – generate email notifications when outage distribution files are received in a notified participant EIEPIn box (according to the participants EIEP notification parameters • ER-1293 – ensure for file distribution an EIEP5A header is always generated (the parameter option does not preclude the HDR line) • ER-1292 – add a refresh button to the outage display screen • ER-1291 – deadlock recovery enhancement to avoid deadlock situation • ER-1290 – when notifying participants of outage changes the relevant information was out of date	External audit
