SYSTEM SOFTWARE RELEASE

RELEASE SUMMARY

System	Electricity Registry
Client	Electricity Authority
Application version	24.04
Platform version(s)	Jade Version 22.0.03 incl. hot patch 3, 4, 5, 9, 12, 13, 15
Release date	Sunday 28 April 2024
Release time	03:00 NZT
Environment	MARPREG (Production)
SDS Secondary	Yes
Issues addressed	2
Enhancements	5
Documentation	Functional Specificationv22.40

RELEASE MANAGEMENT

Qualification status	Complete
Data preservation	The database will be retained
Data setup	No data setup
Data conversion	No data conversion
Release instructions	The release will be completed by JadeCare24 on a managed server
User instructions	None

ELECTRICITY
REGISTRY
NEW ZEALAND

ELECTRICITY

SYSTEM SOFTWARE RELEASE

Issues Addressed

Ref.	Raised	Description	Status
ER-1348	08/03/2024	NSP trading not showing on reconciliation screen. Additional (and more comprehensive) rebuild going in via ICP instead of the NSP that initially alerted to an issue	Complete
ER-1361	24/04/2024	When an EIEP file contains full stops in the unique identifier the full unique identifier is not shown correctly in the "ake" and "confirm" files	Complete

Documentation Updates

Enhancements

Ref.	Raised	Description	Status
ER-1299	27/07/2023	Assist Registry administrators - stop generation of rebuild required message for specific static data (the does not require changes made to the upgrade app)	Complete
ER-1351	28/03/2023	Silent logging and a pause added when an EIEP file cannot be retrieved if momentarily locked (by anti-virus), only alert help desk if persistent error occurs	Complete
ER-1352	28/03/2023	Reject EIEP5A files at the outermost point if the file format is invalid; that is, is not a windows file and missing the correct CrLf end of line characters (note: this only captures where the issue will cause a file too long error, unix files that are not large will continue however they may be rejected in the EIEP5A agent itself as unreadable)	Complete
ER-1353	02/04/2024	Assist operations monitoring, heartbeat added to the database transfer pipe when very large files are transported inside a tight processing loop	Complete
CR-1222	11/04/2024	REST services, recommended security features added to split credentials by environment. Extended to include upcoming SSO feature	Complete
