To: <wits@nzx.com>, Grant Benvenuti <s9(2)(a)>

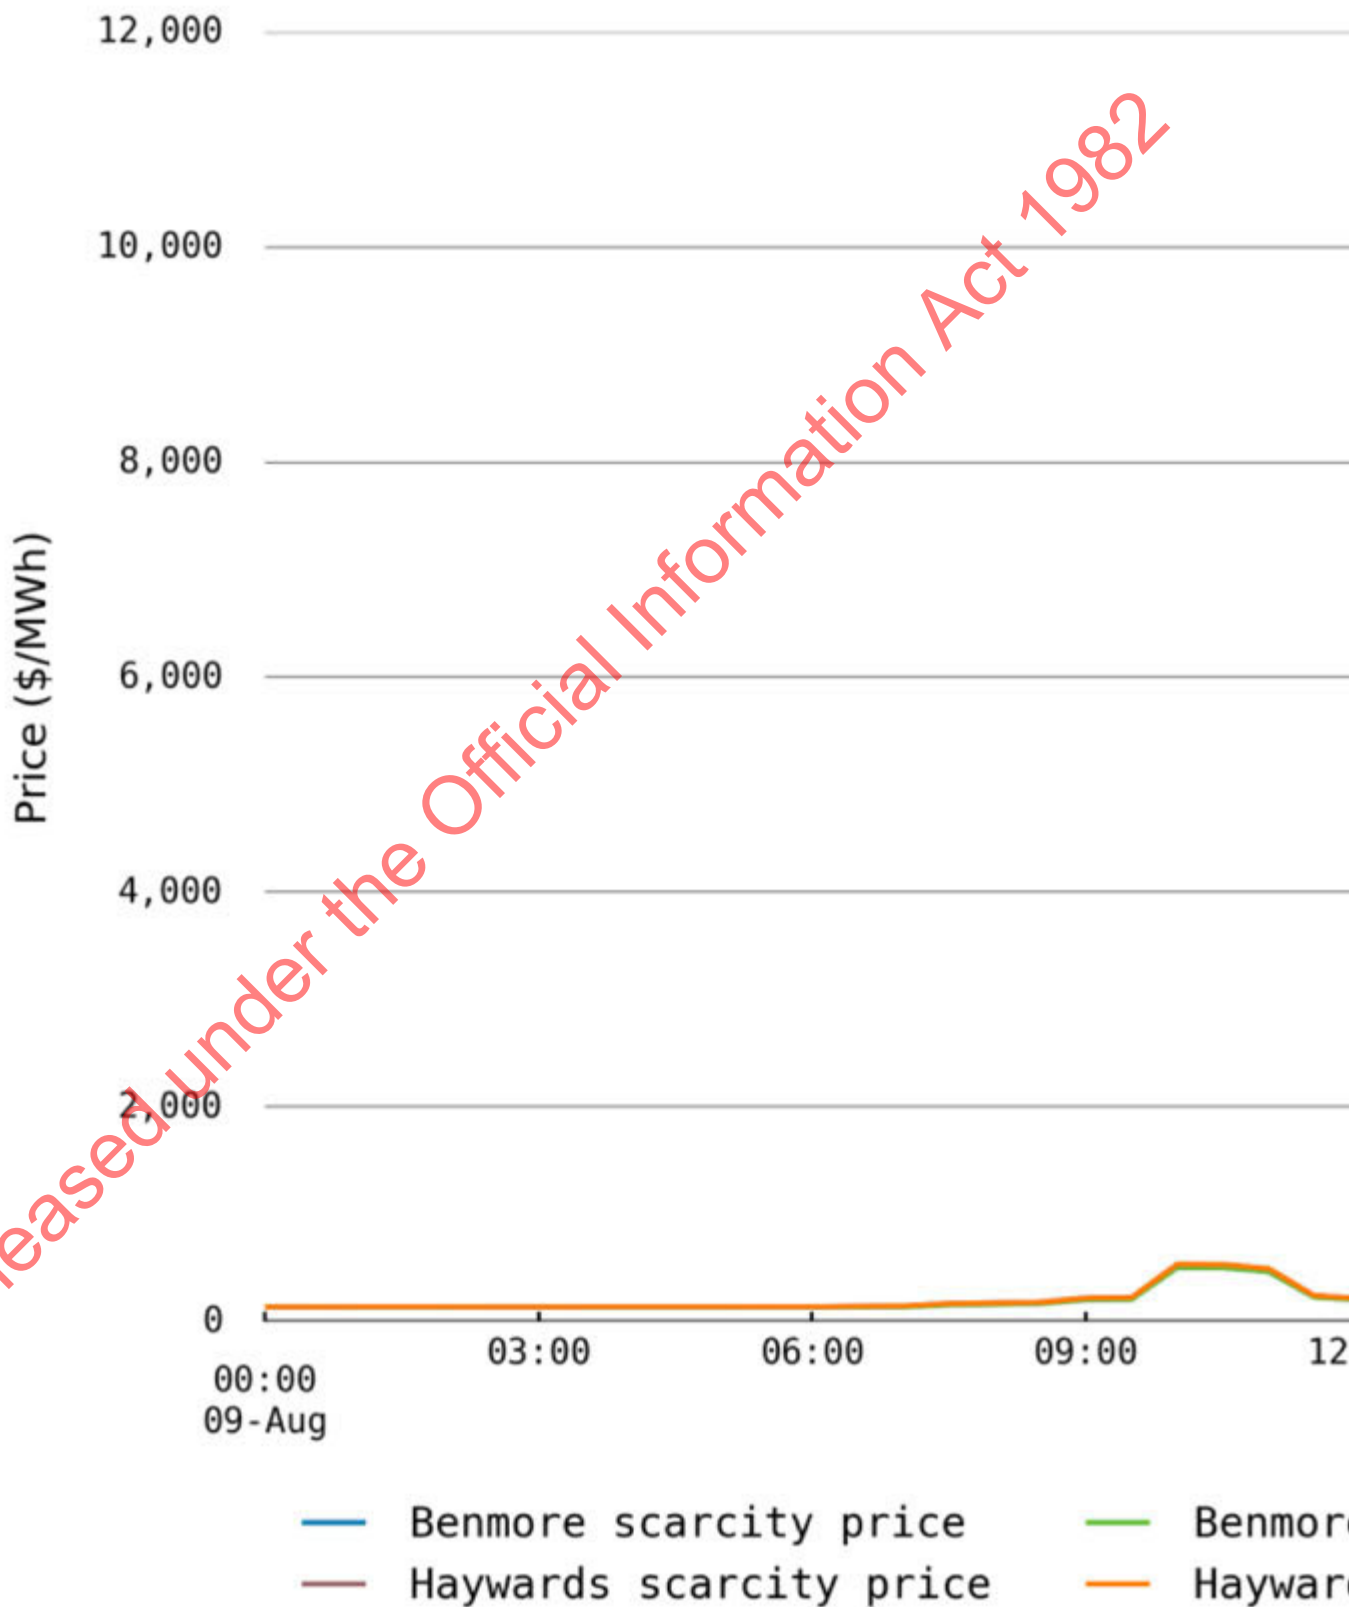

Hello,

Haast is claiming a pricing error has been made regarding calculation of final prices for 9 August 2021, which were published on WITS today.

The prices published today are not consistent with the prices generated by the Pricing Manger which excluded scarcity pricing being applied in 2021, and published by the Authority in its preliminary UTS decision and on its website:

Released under the Official Information Act 1982

Figure 1: Prices with and without scarcity pricing

The Authority has recently re-confirmed the prices which should have been published in the absence of Scarcity Pricing were as published in the preliminary UTS decision.

RE: Aug-21 Pricing Query

To: Phil Bishop, s9(2)(a) Cc: s9(2)(a) Phillip Anderson

Hi All,

The prices calculated by caseID 81112021081200786 were determined before Scarcity Pricing was applied. 81112021081200786 would have been published as interim.

Cheers

Tuong Nguyen.
