**Subject:** FW: Settlement for 9 Aug 2021

Hi team

I've set the expectation for the SO to consider BAU vs TAS work (highlighted bit below).

@Matt Carnihan – although you don't have this type of clause in your contract, it would be good to know what NZX would need to do differently from the normal settlement process for 9 Aug. Essentially what is above and beyond what is already paid for in the contract.

Ngā mihi

Nicole

Thanks Murray – appreciate the information.

No worries about figuring out who I am – I suppose I feel that I know who you are mainly because I've heard your name here so often over the years! Lovely to finally meet you today.

While you are scoping the work to be done, could you please also consider what might be BAU work for the SO vs what is TAS work. The SOSPA has parameters around TAS work that we'll need to adhere to – I can flick you the relevant definitions/sections if you need them.

From the meeting today, it was apparent that this might be more streamlined than the previous SOW (TAS101) where the prices needed to be recalculated after settlement.

Very happy to discuss once you've determined the work to be done.

Ngā mihi

Nicole

Hi Nicole,

Apologies for the “you’re Nicole” moment. I work a lot with s9(2)(a) and her your name often but had never met you before. Nice to meet you.

As discussed attached are the SOW and TAS closeout reports for the SO ancillary services and GO LCE effort for the Dec-2019 UTS ATC.

The actions to correct (ATC) the UTS are contained in the Authority’s final UTS decision paper at [Long-form report \(ea.govt.nz\)](#)

Cheers  
Murray

Tēnā koutou,

**NB NZX removed due to \$'s being contained in both attached docs.**

As promised earlier today – attached are relevant docs from the effort to RE-settle 27 days of Dec-2019 following the prescribed actions to correct (ATC) the Dec-2019 UTS. The docs are the statement of work (SOW) and the project closeout report.

Obviously there are notable differences between the 2 events (6 pds vs 27 days, settling vs resettling) but many of the activities required to effect settlement will be similar.

NB on closer inspection (memory fail) these documents did NOT cover Transpower as FTR Manager.

Noho ora mai

Murray

Kia ora,

All of the respective attendees from Transpower (CC'd and below) are able to meet between 10 and 12:30 on the 12<sup>th</sup>. Please include them on the invite when it sent.

Tēnā koutou,

Thanks Grant, good to get this underway.

I've asked those who had expressed a wish to attend this meeting when I foreshadowed it to them if the time slot suits. I'll come back when I've got responses from them.

As discussed with Saki recently it would be useful to know whether the Authority will engage an auditor for this or not.

I'll dig out the relevant docs from the Dec-19 UTS and share prior to this meeting. Undoubtedly there will be differences but they will give us a reference point.

Noho ora mai

Hi All, (those on the cc list, this is FYI only)

We need to get together to start the process of arranging settlement. With s9(2)(a) being sick, I suggest we do it early next week. Matt, you need to manage the CR process (incl approvals) but Saki, Murray Tim and myself can manage the operational details.

I suggest Tue 12<sup>th</sup>, any time between 10am and 1pm. We can meet here in our offices. s9(2)(a) / s9(2)(a), let me know what time suits you/your teams.

Agenda is:

- determine the tasks that need to happen
- determine the data needed, source, and availability
- propose some timelines

We want to publish a market brief item giving industry an indication of process and indicative timeline ASAP after

Cheers

GB
