Hi Julia

No problem, thanks for letting us know. Unfortunately we aren't free for an hour at 10:30 on Monday – there is a Task Force meeting from 11-11:30. That might be cancelled; but at this stage it's in the diary.

Instead we could do any time between 11:30am and 2pm on Monday, if those times work with you.

Thanks

Luke

Thanks Luke

I keep forgetting to postpone the meeting for today – I have a course that runs over it. I might postpone the meeting until Monday if that is ok with you – that way we will have all draft chapters available to discuss.

Can you please send through some times on Monday that suit? thanks

Hi Julia/Rob

Apologies for how late this is – my comments are attached.

I have followed Reuben's lead and focused most of my efforts on the front sections, but I have also run through most of the rest of the chapter quickly and put comments in throughout. I used Reuben's document as a base so you'll see my comments/changes on top of his. Like Reuben's document, this is my unfiltered thoughts, the same qualifiers apply, etc.

Happy to discuss at 10:30am; I know there's no chance for you/your team to really internalise any of this before then but at least helpful to get it back across to you tonight.

Ngā mihi

Luke

Hey Julia, Rob

I focused my efforts on the preliminary findings section as I figure it's probably best to focus on the conclusions of this work first, rather than spend additional time going through the entire doc. I'll try and add some more comments on the remaining material but am time constrained over the coming days, so it will be difficult for me to deep dive into it before Tuesday at the earliest I'd say.

[Redacted]
[Redacted]

As usual, all the usual qualifiers apply, ie I have only a tentative grip on lots of the actual facts, none of my colleagues have had a chance to review this and are likely to have more sophisticated insights than I, etc , etc.

Cheers

r
